If nothing happens today, its just the beginning. It'll be time to see if my local militia is LARP or not

The whole thing was a sting and this is just for optics. It's effing awesome and worthwhile but, just like the hearings showing voter fraud, it's mainly to ready the normies (the ones who are still reachable anyway) for the hammer to fall.

HA... here is no deadline for something to happen, i agree sooner is better than later but sometimes the best option is to wait. I try to listen to the Sun Tzu once a month.

This is not one of those moments to wait.  
Patience is great, sure. But waiting on more evidence or something is not going to fix this. They don't care.  
You know why Biden hasn't lost what little support he has after the cheating has been exposed? They. Don't. Care. About. Facts.  
There needs to be a new and different approach.

No battle plan survives the first encounter but you should be prepared. I agree when you strike, strike light lighting, but sometimes choosing the field of battle and waiting for re-enforcement is good.  
I wouldn't be upset if DC burned and the liberals and cops were killed, BUT, it might not be time for all that.

Ok, you have a point.  
The way I see today is one of the last days available for peaceful resolution.
